

Sec 4 Students (JAE -JC)

Joint Admission Exercise to JC Programme for Sec 4 students

The Joint Admissions Exercise (JAE) is an annual exercise conducted by the Ministry of Education (MOE). It allows holders of the Singapore-Cambridge GCE 'O' Level results to apply for admission to courses offered in the junior colleges (JC), centralised institute (CI), polytechnics (Poly) and Institute of Technical Education (ITE). The JAE usually takes place in January, after students receive their GCE 'O' level examinations results. JAE application is done through the internet. Students admitted to our College under this exercise will secure a place in our JC1 cohort.

For more information on JAE, please refer to [MOE JAE Website](#).

JAE Appeal for Admission to 2-year NJC Programme in AY2016

The application window will be opened from **15 January 2016, 5pm**, and closed on the day of the release of the JAE posting results, **1pm**.

** Please be aware that school admissions are based on objective and transparent measures of academic merit, i.e. L1R5 aggregate score. Appeals that take place after the JAE will be aligned to these principles, in order to be fair to the other admitted students.*

To appeal for admission to National Junior College, please click [here](#). Please note that we no longer accept hard copy application forms.

After you have completed the online registration, please submit a softcopy of your GCE "O" level result slip to njc@moe.edu.sg by the day of release of the JAE posting results, **2pm**.

You **may be called up** for auditions, trials or interviews by the respective teachers-in-charge.

Only successful applicants will be notified of the outcome of their application through a phone call, latest by 29 January 2016, 12pm. You are required to bring along your original GCE "O" level result slip and Form A for verification.

All applicants are required to report to the college that they are posted to by the Ministry of Education pending the outcome of their application to National Junior College.
